SKY SILVER TIP BRAZING ALLOY

Specification Compliance: AWS A5.8 BCuP-3, ASME SFA 5.8 BCuP-3, ISO 17672 CuP 281

Material: Silver, Phosphorus, Copper, and Proprietary Compounds.

Performance: 5% Equivalent

Harris have been able to not only mimic the performance, flow and usability of 5% silver solder, but create a stronger, more fatigue resistant joint.

Manufactured for the Australian market in 2.4mm round rods that are 500mm long to reduce wastage and increase OEM's productivity.

The Harris Products Group is a wholly owned subsidiary of The Lincoln Electric Company; the world leader in the design, development and manufacture of welding products, robotic welding systems, plasma and oxyfuel cutting equipment.

Brazing alloys also available in 2%, 15%, and 45% (equivalents).
