TEKEDGE

ULTIMATE HI-FLOW

Hi-Flow Tool Spares Kit

TEKEDGE 1 A3 A2L

The Ultimate Hi-Flow Tool Spares Kit is a maintenance kit designed to support the full range of Hi-Flow Core Removal and Access Tools. It provides technicians with essential spare HNBR O-rings and caps to maintain peak performance, extend tool life, and reduce downtime on-site.

Key Features & Benefits

Complete Spare Parts Kit – Includes O-rings to keep Ultimate Hi-Flow tools fully operational.
High-Quality Materials – Matches original specs for durability and refrigerant compatibility (HFC, HFO, A2L/A3).
Minimises Downtime – Ready spares reduce delays and improve workflow efficiency.
Field & Workshop Ready – Fits all TEKEDGE Ultimate Hi-Flow tools for quick replacements without special tools.

Description	Part No.
Ultimate Hi-Flow Tool Spares Kit	TE-ALU-SPARES

Kit contains:
A selection of spare HNBR O rings to suit the full range. One to service the 1/2” port, and two each to suit 3/8”, 5/16” and 1/4” applications.

Spare Caps to suit 5/16” and 1/4” ports (one of each size)
