AVs® Mini

BIG

performance

miniaturized.

Only 7-1/8 in.

At only 7-1/8 inches (181 mm), the AVs® Mini easily goes to work in tight or awkward spaces where full-size aviation snips are challenged. A 3/4 inch (19 mm) length of cut provides the optimum speed for confined cutting applications where this small, maneuverable snip excels.

Each snip is made with forged steel jaws that contain precision-ground serrations on the lower blade, which produces a sharply defined edge for cutting accuracy and control.
